Blk 37, L 9, ACM Woodstock Homes Phase 4 Magnolia St., Carsadang Bago 2, Imus, Cavite

PROFILE

A passionate IT graduate individual who specializes in UI/UX design with additional skills in front-end web development. Actively looking for a company where I can acquire and polish my skills and create opportunities to further upskill. Always willing to learn new things.

TECHNICAL SKILLS

- Network Troubleshooting
- Hardware Troubleshooting
- Programming (C#, HTML, CSS, REACTJS, PHP)
- Microsoft Office (Word, PowerPoint, Excel, Outlook

- Adobe Creative Suite (Photoshop, Premiere Pro, XD, Illustrator)
- Canva, Figma
- Database (phpMyAdmin, SQL Server Management Studio)
- Cisco Packet Tracer

ACCOMPLISHED PROJECTS

· The E-commerce Lunarshift Case Study
UI/UX Design
A complete prototype e-commerce website to provide users with top-quality products for computer set-ups blended with a cosmic themed design.

· Website Portfolio
Front-end Web Development
A compilation of the projects I developed or created as well as the projects I have been into. Used HTML, CSS, and ReactJS, hosted the website with Vercel.

· Camluxe
UI Design
A UI design platform designed for photographers to post their work. Users can easily view or organize their photos and let their creativity stand out.

· Online Game Purchasing System
Programmer
A website project that lets the user choose what game they want to buy, integrating Google Login and PayPal payment with PHP.

· CSOL Connect: Hardware Device Monitoring System
Documentation
A client-server capstone project that monitors the computer laboratories of Cavite School of Life.

· Video Editing
Adobe Premiere Pro
For academic projects, video game montages, reels, TikTok, etc.

PRE-PROFESSIONAL EXPERIENCE

Bureau of Plant Industry **February 2024 - May 2024**
IT Specialist Intern
Learned how to do network configuration with switches, a router, and a firewall. Set-up VLAN for new devices to create connection in the compound area. Preventive maintenance of computers, laptops, and printers; encoded and updated information. Received a task from mentor to code and update the Travel Order website from Laravel 10 to 11.
